Nero AG rejects any claims that transcend the clauses of the guarantee rights to the fullest extent. Nero AG does not undertake any liability for the correctness of the content of this document. The contents of the software supplied, as well as of this document, may be changed without prior warning. Some applications of the Nero Suites require technologies developed by third-party manufacturers. These technologies need to be activated online (free of charge) or by sending an activation fax to have unlimited use of the respective functionality. Nero will then undertake to release the data necessary to activate technologies licensed by third-party manufacturers for use with the product. It is therefore necessary to have an Internet connection or a fax machine.

Unless you own the copyright or have permission from the copyright owner, you may be violating national or international copyright laws and be subject to payment of damages and other remedies, if you duplicate, reproduce, modify, or distribute copyrighted material. If you are unsure of your rights you should contact your legal advisor.

1.1 About the Manual

This manual is intended for all users who want to learn how to use Nero BurnRights. It is process-based and explains how to achieve a specific objective on a step-by-step basis.

To make best use of this documentation, please note the following conventions:

	Indicates warnings, preconditions or instructions that have to be precisely followed.
	Indicates additional information or advice.
1. Start …	The number at the beginning of a line indicates a prompt for action. Carry out these actions in the order specified.
	Indicates an intermediate result.
	Indicates a result.
OK	Indicates text passages or buttons that appear in the program interface. They are shown in boldface.
(see…)	Indicates references to other chapters. They are executed as links and are shown in red and underlined.
[…]	Indicates keyboard shortcuts for entering commands.

1.2 About Nero BurnRights

Nero BurnRights allows a system administrator to authorize users without administrator rights to burn discs and connect new burners. This is necessary as users without administrator rights do not have access to the drivers needed for burning discs or for connecting new burners.

Additionally, the system administrator can assign rights for individual burners or Nero applications to users without administrator rights.

1.3 System Requirements

Nero BurnRights is part of the Nero product you have installed. Its system requirements are the same. Detailed system requirements of this and all other Nero products can be found in the Support section on our Web site www.nero.com.

1.4 Starting the Program

There are several ways to open Nero BurnRights, depending on various factors such as the product you have installed and the operating system you are using.

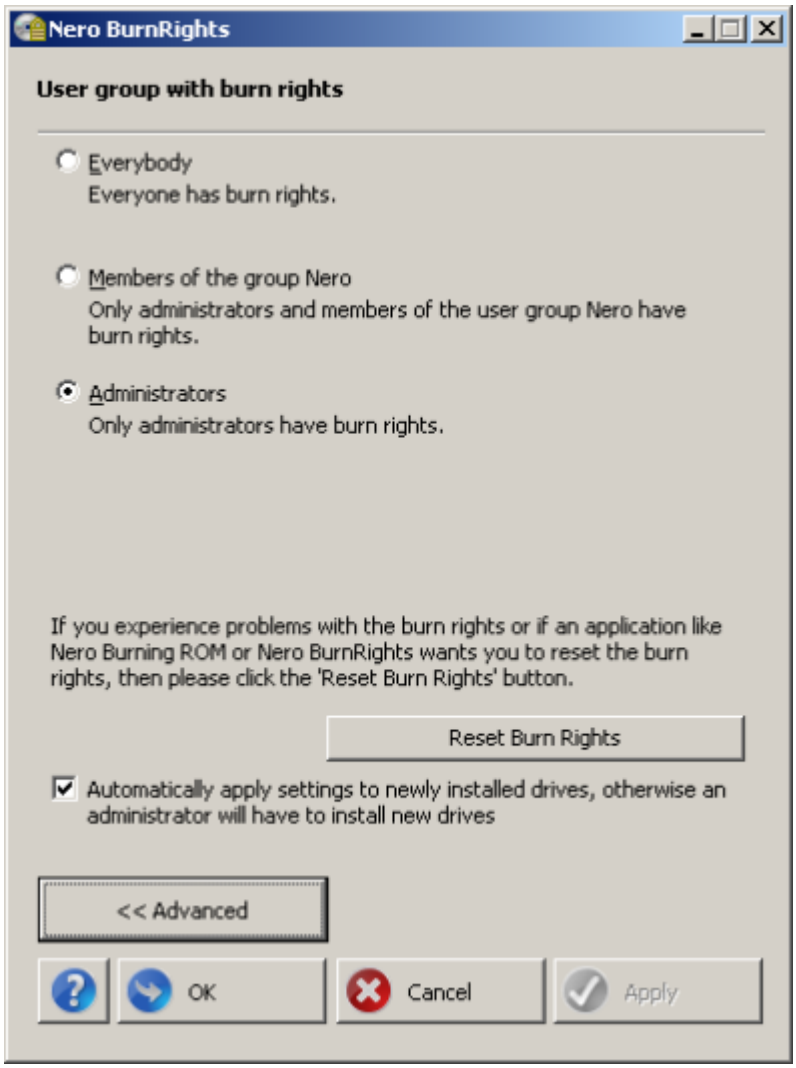
- On Windows 7 and earlier versions of Windows, you can start Nero BurnRights via:
- **Start** (the start icon) > (**All**) **Programs** > **Nero** > **Nero 2015** > Nero BurnRights
- the Nero 2015 desktop icon

- On Windows 8, you can start Nero BurnRights via:
- the Nero 2015 tile (Windows 8 **Start** screen) or the Nero 2015 desktop icon (Windows 8 desktop) if you use Nero 2015
- the Nero BurnRights tile (Windows 8 **Start** screen) if you use Nero BurnRights without Nero 2015 being installed

You can also start Nero BurnRights from the Control Panel.

2 Simple Nero BurnRights Window Under Windows XP

After starting Nero BurnRights under Windows XP, the **Nero BurnRights** window is opened.



Nero BurnRights window

The following setting options are available:

Option button **Everybody**	Assigns burn rights to all users.
Option button **Members of the group Nero**	Assigns burn rights only to members of the Windows group Nero. If the group Nero has not been created in Windows, Nero BurnRights automatically creates the group.

Option button **Administrators**	Assigns burn rights only to administrators. Administrators are users who have administrator rights according to the Windows user profile.
Button **Reset Burn Rights**	Resets the burn rights settings to the default value. By default burn rights are only assigned to Administrators.
Check box **Automatically apply settings to newly installed drives**	Applies the settings made to all newly installed drives automatically. If this check box is not selected, an administrator will have to install new drives manually.
Button **Advanced**	Opens the advanced view of the Nero BurnRights window (see Advanced Nero BurnRights Window Under Windows XP→ 9).
Button	Displays the online help.
Button **OK**	Applies the settings made and closes the **Nero BurnRights** window.
Button **Cancel**	Discards the settings made and closes the **Nero BurnRights** window.
Button **Apply**	Applies all settings made without closing the **Nero BurnRights** window.

Groups to which users can be assigned are only available or can only be created if the computer is assigned to a domain.

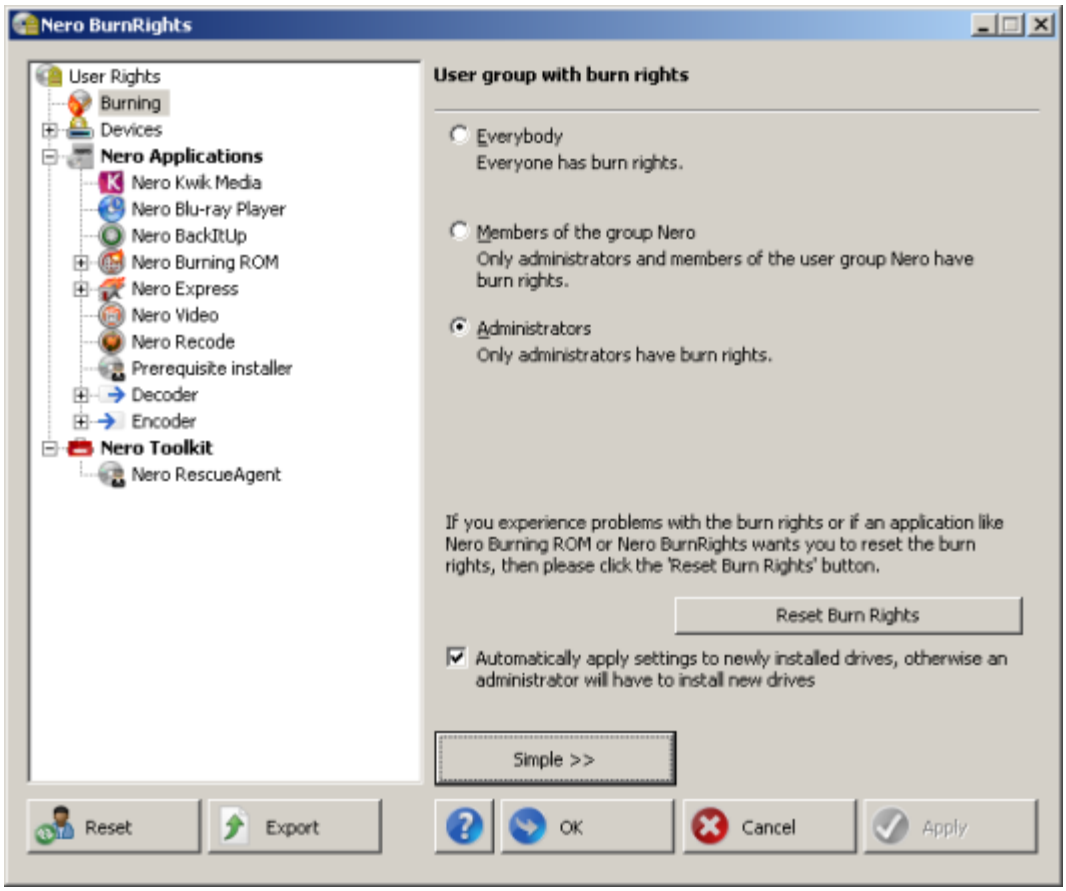
If users are refused burn rights, they cannot burn any discs using the installed recorder. Such users only have access to the Image Recorder with the option of burning disk images.

In a network with user administration via Active Directory, burn rights must be assigned to all users. This is achieved by clicking the **Everybody** option button. Otherwise, only local users can be assigned user rights.

3 Advanced Nero BurnRights Window Under Windows XP

After starting Nero BurnRights under Windows XP and clicking the **Advanced** button, the extended **Nero BurnRights** window is opened. Here you can set up and assign the burn rights and other rights individually, according to your wishes.

Select an entry in the navigation tree to display the respective screen for editing on the right side.



Nero BurnRights window

The following entries are available in the navigation tree:

Burning	Displays the **User group with burn rights** screen. The **Everybody**, **Members of the group Nero**, and **Administrators** options buttons are available. In the default settings only administrators have full burn rights.
Devices	Offers a list of devices for which you can assign user rights. You can either assign user rights for each single device or for all devices at once. For each entry or sub entry the **Everybody**, **Administrators**, and

	Nobody option buttons are available. In the default settings only administrators have full burn rights.
Nero Applications	Offers a list of applications for which you can assign user rights. You can assign different user rights for single formats, applications and compilations. For each entry or sub entry the **Everybody** and **Nobody** option buttons are available. In the default settings everybody has full rights of use.
Nero Toolkit	Offers a list of tools for which you can assign user rights. You can assign different user rights for every single tool. For each entry or sub entry the option buttons **Everybody** and **Nobody** are available. In the default settings everybody has full rights of use.

The following setting options are available under Windows XP:

Option button **Everybody**	Assigns burn rights and/or other rights to all users.
Option button **Members of the group Nero**	Assigns burn rights and/or other rights only to members of the Windows group Nero. If the group Nero has not been created in Windows, Nero BurnRights automatically creates the group
Option button **Administrators**	Assigns burn rights and/or other rights only to administrators. Administrators are users who have administrator rights according to the Windows user profile.
Option button **Nobody**	Disables burn rights and/or other rights for all users.
Check box **Automatically apply settings to newly installed drives**	Applies the settings made to all newly installed drives automatically. If this check box is not selected, an administrator will have to install new drives manually.
Button **Reset Burn Rights**	Resets the burn rights settings to the default value. By default burn rights are only assigned to Administrators.
Button **Simple**	Opens the simple view of the Nero BurnRights window (see Simple Nero BurnRights Window Under Windows XP→ 7).
Button **Reset**	Resets all user rights configurations for all features and applications except the burn rights back to default settings.

Button **Export**	Creates a registry file with your rights settings except the burn rights.
Button	Displays the online help.
Button **OK**	Applies all changes made and closes the **Nero BurnRights** window.
Button **Cancel**	Discards the settings made and closes the **Nero BurnRights** window.
Button **Apply**	Applies all changes made without closing the **Nero BurnRights** window.

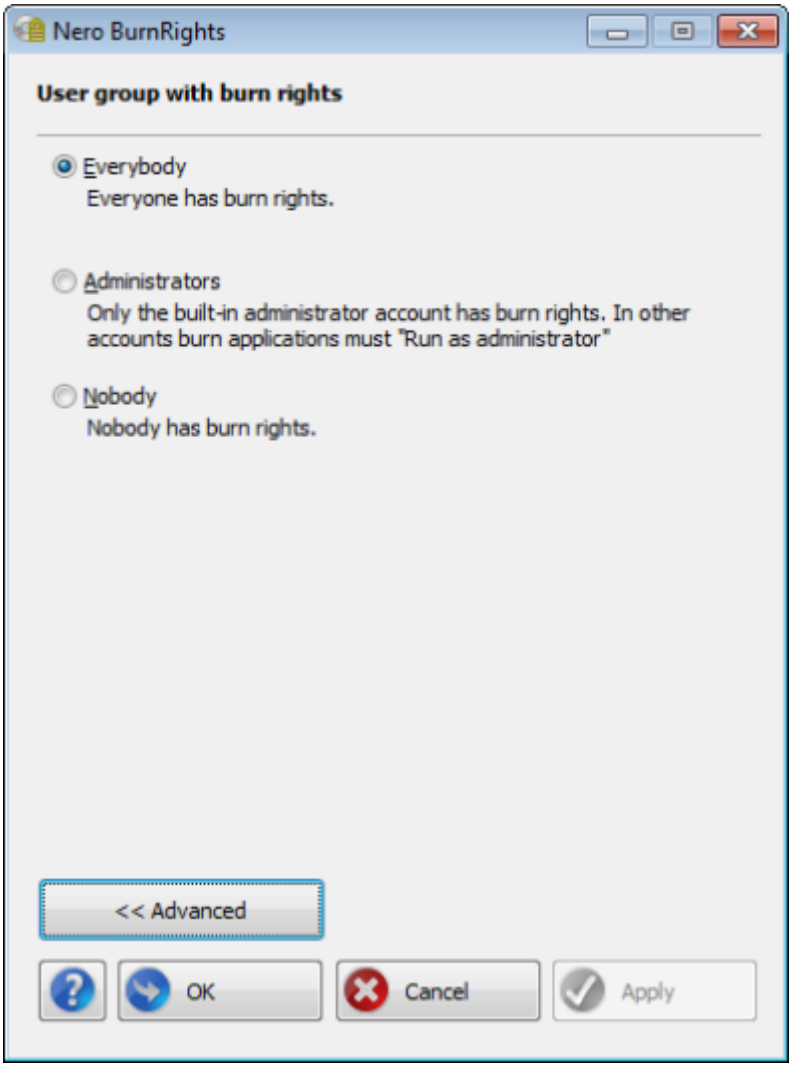
Groups to which users can be assigned are only available or can only be created if the computer is assigned to a domain.

If users are refused burn rights, they cannot burn any discs using the installed recorder. Such users only have access to the Image Recorder with the option of burning disk images.

In a network with user administration via Active Directory, burn rights must be assigned to all users. This is achieved by clicking the **Everybody** option button. Otherwise, only local users can be assigned user rights.

4 Simple Nero BurnRights Window Under Windows Vista, Windows 7, And Windows 8

After starting Nero BurnRights under Windows Vista, Windows 7, or Windows 8, the **Nero BurnRights** window is opened.



Nero BurnRights window

The following setting options are available:

Option button **Everybody**	Assigns burn rights to all users.

Option button **Administrators**	Assigns burn rights only to administrators. Administrators are users who have administrator rights according to the Windows user profile.
Option button **Nobody**	Disables burn rights for all users.
Button **Advanced**	Opens the advanced view of the **Nero BurnRights** window (see Advanced Nero BurnRights Window Under Windows Vista, Windows 7, And Windows 8→ 14).
Button	Displays the online help.
Button **OK**	Applies the settings made and closes the **Nero BurnRights** window.
Button **Cancel**	Discards the settings made and closes the **Nero BurnRights** window.
Button **Apply**	Applies the settings made without closing the **Nero BurnRights** window.

Groups to which users can be assigned are only available or can only be created if the computer is assigned to a domain.

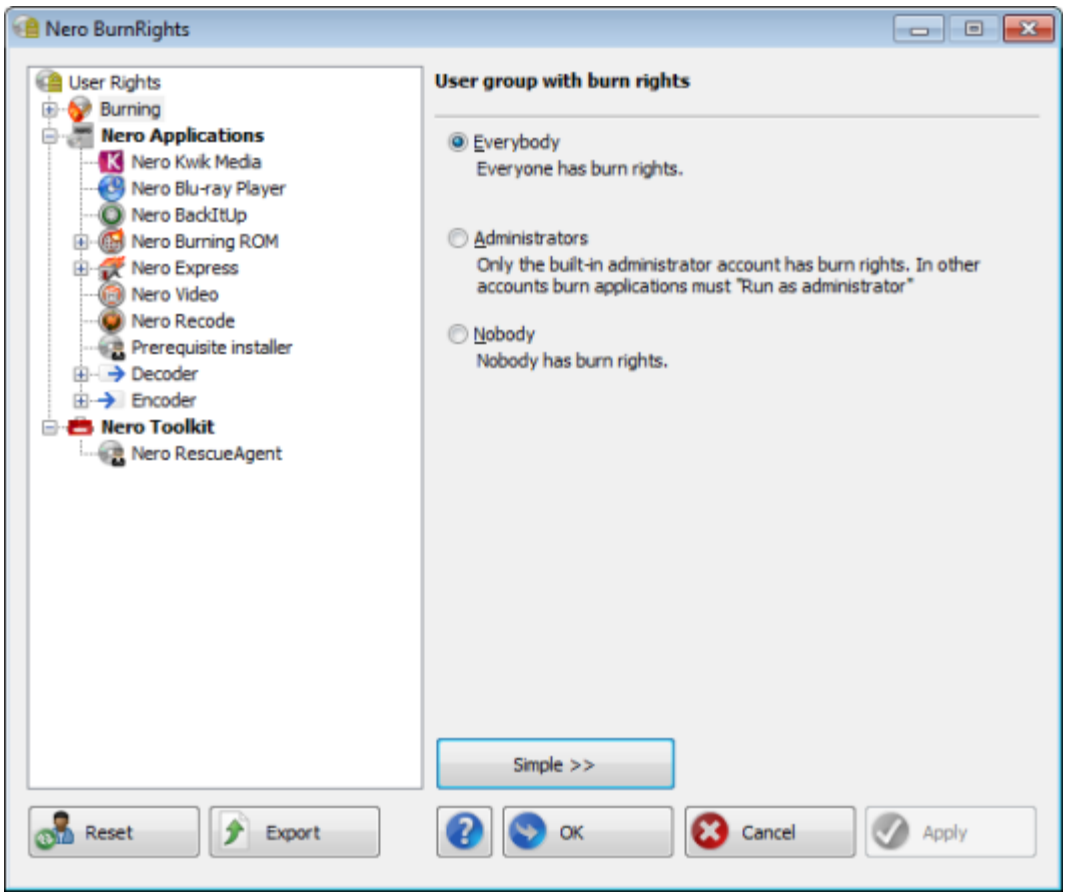
If users are refused burn rights, they cannot burn any discs using the installed recorder. Such users only have access to the Image Recorder with the option of burning disk images.

In a network with user administration via Active Directory, burn rights must be assigned to all users. This is achieved by clicking the **Everybody** option button. Otherwise, only local users can be assigned user rights.

5 Advanced Nero BurnRights Window Under Windows Vista, Windows 7, And Windows 8

After starting Nero BurnRights under Windows Vista, Windows 7, or Windows 8 and clicking the **Advanced** button, the extended **Nero BurnRights** window is opened. Here you can set up and assign the burn rights and other rights individually, according to your wishes.

Select an entry in the navigation tree to display the respective screen for editing on the right side.



Nero BurnRights window

The following entries are available in the navigation tree:

Burning	Displays the **User group with burn rights** screen. It offers a list of devices for which you can assign user rights. You can either assign user rights for each single device or for all devices at once. For each entry or sub entry the **Everybody**, **Administrators**, and **Nobody** option buttons are available. In the default settings everybody has full burn rights.

Nero Applications	Offers a list of applications for which you can assign user rights. You can assign different user rights for single formats, applications and compilations. For each entry or sub entry the option buttons **Everybody** and **Nobody** are available. In the default settings everybody has full rights of use.
Nero Toolkit	Offers a list of tools for which you can assign user rights. You can assign different user rights for every single tool. For each entry or sub entry the option buttons **Everybody** and **Nobody** are available. In the default settings everybody has full rights of use.

The following setting options are available on the right side of the window:

Option button **Everybody**	Assigns burn rights and/or other rights to all users.
Option button **Administrators**	Assigns burn rights and/or other rights only to administrators. Administrators are users who have administrator rights according to the Windows user profile.
Option button **Nobody**	Disables burn rights and/or other rights for all users.
Button **Simple**	Opens the simple view of the **Nero BurnRights** window (see Simple Nero BurnRights Window Under Windows Vista, Windows 7, And Windows 8→ 12).
