In addition, this document contains material that is protected by internationally valid copyright. This document may not be reproduced, transmitted, or transcribed in whole or in part without the express written permission of Nero AG.

Please keep in mind that existing graphics, pictures, videos, music titles or other materials that you may wish to insert or transcribe into projects may be protected by copyright. The unauthorized use of this type of material in your projects may violate the rights of the owner of the copyright. Make sure that you obtain all necessary authorizations from the owner of the copyright.

Unless you own the copyright, have permission from the copyright owner or your actions fall under the "fair use" provisions of copyright law, you may be violating national or international copyright laws. The transcribing, re-formation, modification or publication of copyright-protected material may lead to claims for damages and the enforcement of other legal measures against you. If you are unsure of your rights, you should contact your legal advisor.

Some Nero Suite applications require technologies developed by third-party manufacturers, some of which are contained in the Nero Suite as demo versions. These applications can be activated online free of charge or by sending an activation fax to have unlimited use of the version. Nero will only transmit the data necessary for activation of the technology licensed from third parties. For unlimited use of Nero Suite, it is therefore necessary to have an Internet connection or a fax machine.

1.1 About Nero BurnRights

Nero BurnRights in combination with Windows 2000 and later allows a system administrator to authorize users without administrator rights to burn discs and connect new burners. This is necessary as users without administrator rights do not have access to the drivers needed for burning discs or for connecting new burners.

1.2 About the manual

This manual is intended for all users who want to learn how to use Nero BurnRights. It is process-based and explains how to achieve a specific objective on a step-by-step basis.

To make best use of this documentation, please note the following conventions:

	Indicates warnings, preconditions or instructions that have to be precisely followed.
	Indicates additional information or advice.
1. Start ...	The number at the beginning of a line indicates a prompt for action. Carry out these actions in the order specified.
	Indicates an intermediate result.
	Indicates a result.
OK	Indicates text passages or buttons that appear in the program interface. They are shown in boldface.
<u>(see...)</u>	Indicates references to other chapters. They are executed as links and are shown in red and underlined.
[...]	Indicates keyboard shortcuts for entering commands.

2 Launching the program

To start Nero BurnRights via Nero StartSmart, proceed as follows:

1. Click the **StartSmart** icon.
→ The Nero StartSmart window opens.
2. Click the  button.
→ The list of Nero applications appears.

Nero StartSmart window

3. Select the Nero BurnRights entry in the selection list.
4. The **Nero BurnRights** window opens.
→ You have launched Nero BurnRights via Nero StartSmart.

3 Nero BurnRights window

When you have started Nero BurnRights, the **Nero BurnRights** screen appears.

Nero BurnRights window

The following setting options are available:

Option button All	Assigns burn rights to all users.
Option button Members of the Nero group	Only assigns members of the Windows group Nero burn rights. If the Nero group has not yet been created in Windows, then Nero BurnRights automatically creates the group.
Option button Administrators	Only administrators are assigned burn rights. According to the Windows user profile, administrators are users who have administrator rights.
Option button Nobody	Assigns burn rights to no one.

Button Reset burn rights	Opens the Reset Burn Rights window. Here you can change the settings for the burn rights back to their original state .
Check box Automatically apply settings to the drives just installed.	Automatically applies the burn rights to the drives just installed. If the check box is not enabled, users must have administrator rights to install new drives.
	Launches the online help.
Button OK	Applies the settings made and closes the Nero BurnRights window.
Button Cancel	Discards the settings made and closes the Nero BurnRights window.
Button Apply	Applies the settings made.

Groups to which users can be assigned are only available or can only be created if the computer is assigned to a domain.

If users are refused burn rights, such users cannot burn any discs using the installed recorder. They only have access to the Image Recorder with the option of burning CD or DVD images.

In a network with user administration via Active Directory, burn rights must be assigned to all users. This is achieved by clicking the **All** option button. Otherwise, only local users can be assigned user rights.

4 Assigning Burn Rights

To assign user rights, proceed as follows:

1. If you want to assign all users user rights, enable the **All** radio button.
2. If you want to assign burn rights only to members of the Nero user group and administrators, click the **Members of the group Nero** option button.
 - ➔ If the group Nero has not been created yet, the following message is displayed: "The group Nero does not exist. Would you like to create the group now?" .
3. To create the group Nero:
 1. Click on **Yes** in the **Nero BurnRights** dialog box.
 - ➔ The Nero group is created.
4. If you only want to assign burn rights to administrators, enable the **Administrators** radio button.
5. If you want to reset existing burn rights:
 1. Click on the **Reset burn rights** button.
 - ➔ The **Reset burn rights** window opens.
 2. Click on the **Reset burn rights** button.
6. If you want to automatically apply the settings in the **Nero BurnRights** window to the drives just installed, select the **Automatically apply settings to the drives just installed** check box.
7. If you want to confirm the settings made and close the **Nero BurnRights** window, click on the **OK** button.
8. If you want to discard the settings made and close the **Nero BurnRights** window, click on the **Cancel** button.
9. If you want to confirm the settings made, click on the **Apply** button.
10. Restart the computer to save the changed settings.
11. Once you have created the user group **Nero**, add the desired users from the group Nero in the Windows **Control Panel > User Accounts**.
 - ➔ You have assigned rights for the entire Nero Suite.
