Covertng videos for iPod/iPhone with Nero Recode

You can use Nero Recode to encode all video formats supported by Nero into Nero Digital files. The Nero Digital codec is MPEG-4-compliant. With the iPod profile you can play Nero Digital videos on your iPod or iPhone.

To recode a DVD or video to Nero Digital for your iPhone or iPod, proceed as follows:

1. Choose the **Recode DVDs and Videos to Nero Digital** task in the **Nero Recode** main window.
 - The **My Nero Digital Disc** screen is displayed.
 2. Select the required import profile in the **Title import profile** area.
 3. Click the **Import Files** button.
 - The **Import Titles** window is opened.
 4. Select the video titles that you want to recode and click the **Add titles** button.
 - The selected video files are imported and displayed in the content area. Underneath, the capacity bar shows how much disk space is taken up by the imported files on the disc graphically.
-  In order to adjust the quality of a desired video title individually, you can move the slider in the **Video Quality** column under the content area. The quality of the remaining DVD content is lowered proportionally to the quality improvement of an individual piece of content.
- The sliders in the **Video Quality** area are enabled only when the **Fit to target** check box is disabled.
5. Choose the **Apple Ipod** Nero Digital category in the **Profile Category** drop-down menu.
 6. Select the required Nero Digital profile in the **Profile** drop-down menu.
 7. Select the **High quality (2-pass)** encoding method from the **Encoding Method** drop-down menu.
 8. Click the **Next** button to define the burn settings.
 - The **Burn Settings** screen is displayed.
 9. Make the required settings for the burn process.
 10. Click the **Burn** button.
 - The recoding and burn process is started and the **Recording and Burning** screen is displayed. You can track the process here.
 - The burn process is complete when the relevant message appears in the information window.
 - You have recoded a DVD or a video into Nero Digital.
