Back up only new files since last backup with Nero BackItUp

In this tutorial you can follow the step-by-step procedure for carrying out backups with Nero BackItUp. You will learn how to backup only new files since your last backup. This means that individual files can be backed up and then restored at a later point in time. In comparison to drive backups, it is not possible to restore operating systems or programs with this option.

The first step is selecting files and folders to back up.

The next step is to select a target where to save the backup. You can save the backup on your hard drive or removable data media, burn them to a disc or use an online storage.

At last you can make settings according to your preferences.

To backup files, proceed as follows:

1. Click the **Backup > File Backup** menu.
 - The **File Backup - Select what you want to backup** screen is displayed.
2. Select the check box preceding the folder or the file that you want to add to the backup. Select a folder in the left to show the contained files in the right.
 - The selected files are added to the backup.
3. Click the  button.
 - The **File Backup - Please select targets** screen is displayed.
4. Click the icon that represents your desired target and specify the target in the drop-down menu.
5. Click the **Browse** button to specify the chosen target path.
6. If you want to back up to different targets, click the **Add target** button and repeat the two previous steps.
7. Click the  button.
 - The **File Backup - Configure your backup** screen is displayed
8. Select **Incremental backup** from the **Select backup type** drop-down menu.
9. Enter a name for the backup in the **Backup name** input field.
10. Define the backup schedule in the **Define your time schedule** window.
11. Configure other settings as desired in the **Options** area.
12. If necessary, specify additional settings in the **Expert Options** area.
13. Click the  button.
 - The file backup of new files is carried out and the final screen is displayed. You can follow the process status in the task bar.
 - You have successfully created a backup of only new files.
