Export video to file

In this tutorial you can follow the step by step procedure for exporting a movie in Nero Vision as a file on the hard disk of your PC.

The following requirements have to be fulfilled:

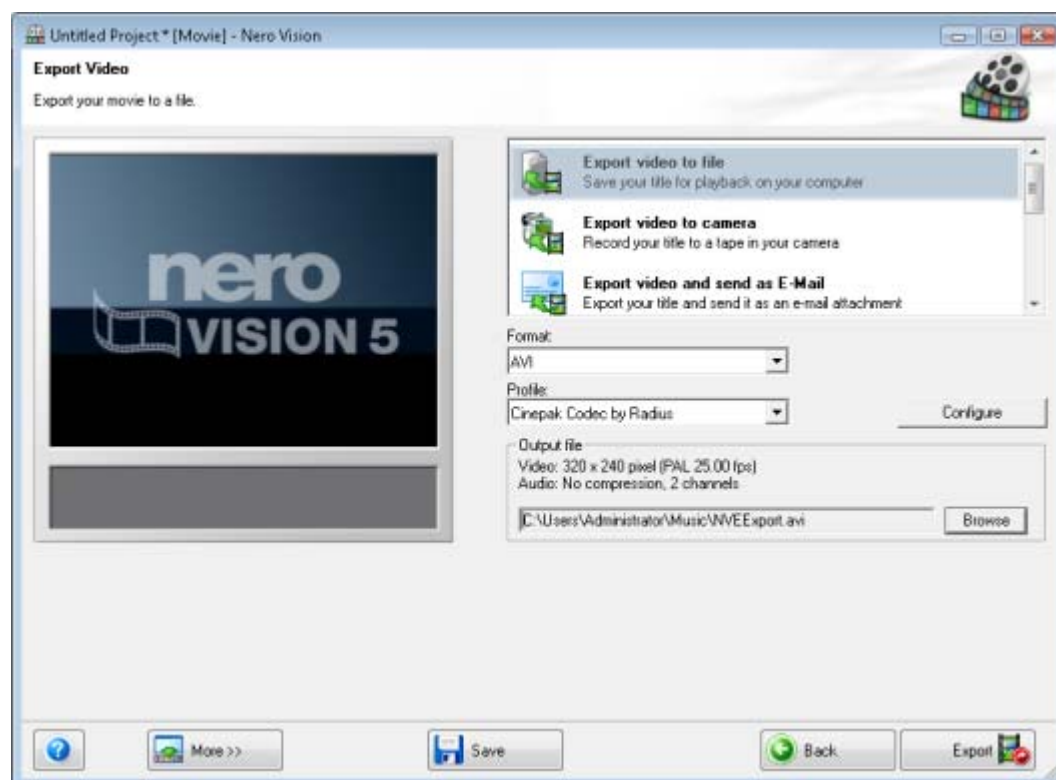

- You have started Nero Vision.
- You have opened a video for editing in the **Movie** screen or you have added at least one video to your project in the **Content** screen.

To export a movie as file to your hard disk, proceed as follows:

Through an example this tutorial shows the export of a movie to the hard disk in Nero Digital™ format.

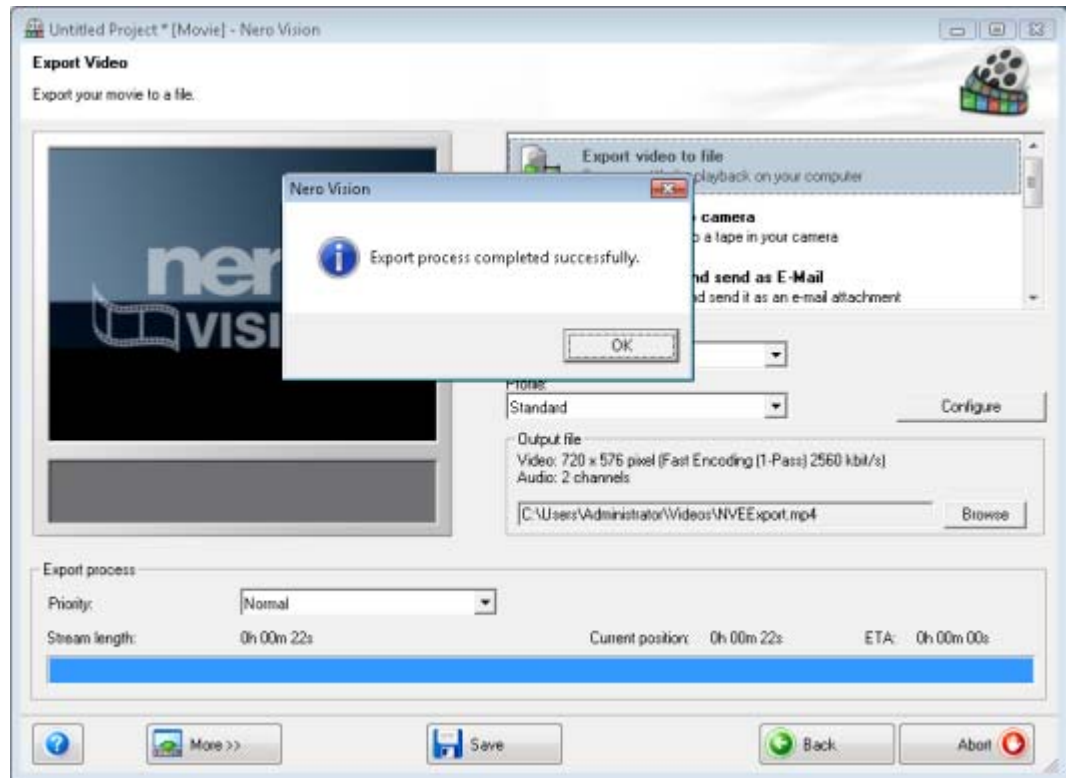

1. Click on **Export** button .
→ The **Export Video** screen is displayed.

Export Video screen

2. In the selection area, select the **Export video to file** export option.
→ The drop-down menus for output formats and profiles are displayed in their adjusted form.
3. Select the **Nero Digital™** format in the **format** drop-down menu.
4. In the **Profile** drop-down menu, select the **Standard** profile.
5. If you want to save the video to a different folder and under a different name to the one shown in the **Output file** display field:
 1. Click on the **Browse** button.
→ The window **Select a location for the video file** is opened.

2. Select the desired folder from the **Location** selection menu.
3. Enter the desired file name in the **File Name** input field and click on the **Save** button.
6. Click on the **Export** button.
 - ➔ Export starts. The export progress is displayed in the same window. As soon as the export is complete, a window will open.

Export process completed successfully.

7. Click the **OK** button.
 - ➔ Nero Vision automatically returns to the screen that was displayed before the export.
 - ➔ You have exported a movie to your hard disk.

Nero Vision is a product of Nero AG
