## Make Movie

In this tutorial you can follow the step by step procedure for producing a Nero Vision movie.

You cannot edit videos or make your own movies in Nero Vision Essentials SE.

The following requirement must be met:

- You have started Nero Vision.

To make a movie, proceed as follows:

1. In the **Start** screen, select the **Make Movie** option.
  - The **Movie** screen is displayed.  
Media files which are available already are displayed in the upper right area – the media area. The entry displayed in the standard settings is **My Media Files**.
2. If you want to add media files that are stored on your PC to the movie, click on the  button.
  - The **Open** window is opened.
3. Select the required files and click the **Open** button.
  - The files are added to the media dialog box.  
In the standard settings the files are displayed under the **My Media Files** entry.

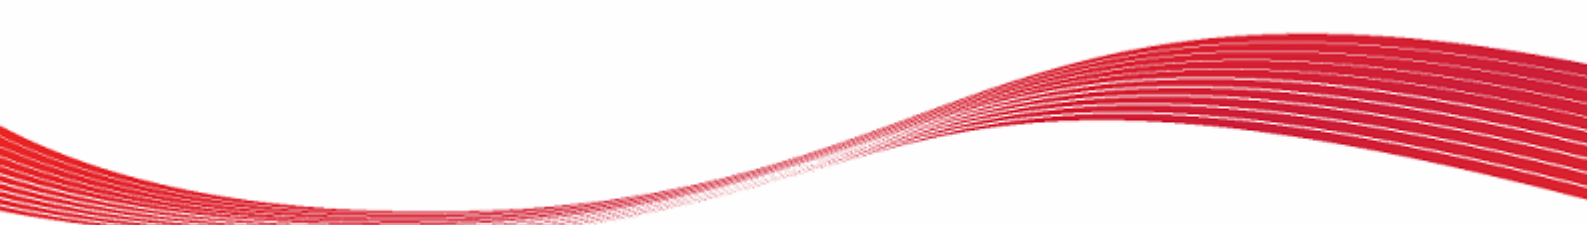

Movie screen

4. Select the files that you want to add to the movie and click on the  button.
  - Media files are inserted in the contents dialog box on the  tab and displayed with a thumbnail.

Contents area with videos

5. If you want to add more files to your compilation, repeat the previous step.
  - The additional media files are positioned at the start of the movie in the Contents area and shown with thumbnails.
6. To add a file to the end of the movie:
  1. Click the film strip until it is highlighted in blue.
  2. In the media are, select the file that you want to add to the movie and click on the button .
    - The media file in the content area is positioned at the end of the movie and displayed as a thumbnail.
7. To add a file to the movie at a particular point:
  1. Select the file in the Contents area in front of which you want to add the file.
  2. In the media are, select the files in the that you want to add to the movie and click on the button .

- 
- The media file in the content area is positioned before the selected spot and displayed as a thumbnail.
  8. To adjust the order of individual media files in the content area, simply move them to the desired location by drag-and-drop.
  9. Click the  button and watch the movie in the preview area.
  10. If you are happy with the movie, click on the **Next** button.
    - The **Contents** screen is displayed.
    - You have made a movie.
