## Choose Video Template

In this tutorial you can follow the step by step procedure to amend your movie project by a theme-based intro and outro video and automatically insert various suitable (text) effects, transmissions as well as background music into the Content area.

You cannot edit videos or make your own movies in Nero Vision Essentials SE.

The following requirements have to be fulfilled:

- You have launched Nero Vision.
- The **Movie** screen is visible.
- You have inserted at least one video title into the Content area.

To modify a template, proceed as follows:

1. Click the  button in the Content area.

→ The **Choose Template** window appears.

The number of templates is limited in the Nero Vision default installation. A variety of creative Movie Wizard templates is available for download at [www.nero.com](http://www.nero.com).

2. Select the desired theme and click the **OK** button.

→ The items of the theme-based template, intro and outro video are inserted into the Content area.

3. To customize the title displayed in your video:

1. Double-click the intro text effect on the  tab.

→ The **Properties** window opens.

2. Enter the required text in the **Text** input field.

3. Make any additional settings as required on the selected effect.

4. Click the  button.

→ The title will be adapted.

4. To watch the movie in the preview area:

1. Click the film strip on the  tab to highlight in blue.

2. Click the  button.

→ The movie is played the preview area.

5. If you are satisfied with the movie, click the **Next** button.

→ You have selected and customized a template.
